

The object of this ready reckoner is to give a guide price for the selection of underfloor heating Kits. Consider steps 1, 2 and 3 and choose from the selection of prices at (1) to (5). All prices are ex works and are plus vat. For further advice on selection please call 023 8841028.

You may also send us the house drawings and we will price the materials free of charge for you.

**Step 1.** Consider in sq. meters or sq ft. the size of space requiring underfloor heating.

**Step 2.** Consider the number of zones you require and order a thermostat for each.

**Step 3.** Consider the required number of loops. The maximum loop length is 100 meters of pipe. 100 meters of pipe positioned at 150mm pipe centres will cover approximately 15 sq. meters maximum area per loop.

**Price (1)** includes Pipe, track rail, staple clips, Manifold, flow meters, air vents, fill and drain valves, regulating valves, temperature gauges and hot and cold isolating valves.

**Price (2)** includes all the items in **Price (1)** plus the number as stated of Heatmiser DS1-L single setting 230volt thermostats.

**Price (3)** includes all the items in **Price (1)** and **Price (2)** plus a complete mixer system circulating pump and accessories suitable for oil/gas boiler, Stoves, wood pellet boilers etc.

**Price (4)** includes all the items in **Price (1)** plus the number of thermostats stated including high quality Heatmiser Digital Programmable (set back) thermostats.

**Price (5)** includes all the items in **Price 1** and **Price 4** plus a complete mixer system, circulating pump, and accessories suitable for oil/gas boiler, stoves, wood pellet boilers
